**APPLICABLE SECTIONS OF CATAGORIES A. through D. FOR LOCAL HISTORIC LANDMARKS**

- A. That are associated with events that have made a significant contribution to the broad patterns of our history.

*The house was built during the time of early Moravian settlement in what is today Forsyth County. Most members of the Moravian community built their homes in the Towns of Bethabara and later Bethania and Salem. This farmstead is unusual in that it is associated with the Moravians yet located outside of any planned town. Additionally, it is one of the very few clearly 19<sup>th</sup> Century two-story log houses remaining in Forsyth County.*

- C. Properties that embody the distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction.

*The house is a two-story weather boarded log structure with hall and parlor interior arrangements. The house has two exterior chimneys, a boxed cornice and six over six windows. The hand-hewn logs and structural design attest to the architectural stability and uniqueness of this type of construction. Interior features of the house include simple woodwork and arched fireplace openings on both parlor fireplaces. Significant outbuildings include a smokehouse, garage, and two-story grain storage building.*

**STAFF COMMENTS**

The applicant is seeking to remove approximately 6 acres of the site of Local Historic Landmark 84, the Thomas Christian Shultz House. The proposed acreage to be removed does not contribute to the character of the Landmark. The main house and remaining outbuilding remain on their original site. In 1992, the Forsyth County Historic Properties Commission approved a Certificate of Appropriateness for a new house on the farmstead. Reviewing the site 27 years later, the parcel with the new house no longer depicts a ca.1830 rural farmstead landscape. The wooded parcel has been subdivided and sold to a neighbor. It is not contiguous with the log house site.

However, the lot with the Thomas Christian Shultz House on it continues to retain its significance under Criterion A and C. The landmark's significance still includes the association with the settlement of the Moravian community in today's Forsyth County. The Schultz House is still unusual in that it is associated with the Moravians yet located outside of any planned town. The construction and building type are still one of the very few clearly 19<sup>th</sup> Century two-story log houses remaining in Forsyth County. The property will still possess integrity of design, materials, workmanship, feeling, and association.

**FORSYTH COUNTY HISTORIC RESOURCES COMMISSION RECOMMENDATIONS**

The Historic Resources Commission reviewed the boundary amendment at their June 5, 2019 meeting and unanimously voted to recommend approval of the removal of the approximately 6 acres from the currently designated site of the Local Historic Landmark #84, Thomas Christian Schultz House.
